The Key

YEARBOOK MESSAGE

As you look back over the past school year, each of you will have many memories. You will have thoughts about new and old friends, about sports, science fair, teachers, grad and special events. During 22 years as Principal, I have known many fine students and teachers who have added much to the school environment. These are the things that add richness to our life. I encourage you to continue your involvement and to even increase your participation in the various aspects of school life.

To the Grad class of '02 – my sincere best wishes for a happy and rewarding future.

As this is my last yearbook message, I want to leave you with a story that has some good common sense advice for all.

THE GOOSE STORY

This Fall, when you see geese heading South for the Winter...flying along in 'V' formation...you might consider what science has discovered as to why they fly that way.

As each bird flaps its wings, it creates an uplift for the bird immediately following. By flying in 'V' formation, the whole flock adds at least 71% greater flying range than if each bird flew on its own.

PEOPLE WHO SHARE A COMMON DIRECTION AND SENSE OF COMMUNITY CAN GET WHERE THEY ARE GOING MORE QUICKLY AND EASILY BECAUSE THEY ARE TRAVELLING ON THE THRUST OF ONE ANOTHER.

When a goose falls out of formation, it suddenly feels the drag and resistance of trying to go it alone...and quickly gets back into formation to take advantage of the lifting power of the bird in front.

IF WE HAVE AS MUCH SENSE AS A GOOSE, WE WILL STAY IN FORMATION WITH THOSE WHO ARE HEADED IN THE SAME DIRECTION WE ARE.

When the head goose gets tired, it rotates back in the wing...and another goose flies point.

IT IS SENSIBLE TO TAKE TURNS DOING DEMANDING JOBS...WITH PEOPLE OR WITH GEESE FLYING SOUTH.

Geese honk from behind to encourage those up front to keep up their speed.

WHAT DO WE SAY WHEN WE HONK FROM BEHIND?

Finally...and this is important...when a goose gets sick or is wounded by gunshots and falls out of formation, two other geese fall out with that goose and follow it down to lend help and protection. They stay with the fallen goose until it is able to fly or until it dies – and only then do they launch out on their own, or with another formation, to catch up with their group.

IF WE HAVE THE SENSE OF A GOOSE, WE WILL STAND BY EACH OTHER LIKE THAT.

Congratulations to the yearbook staff on another fine edition of the J.C.C. Yearbook.

CLASS OF 2002

VALEDICTORIAN ADDRESS

We look to the future with anticipation and enthusiasm. In our dreams we see the future as a wonderful place, and it probably will be, but there will always remain this reality: The journey through life is sometimes hard, sometimes tiring, and sometimes frustrating. No one has promised us an easy life. If life were easy, simple, and straightforward, we would never discover the depth and perseverance of our character.

As I look into the faces of my classmates I see true strength and resilience. We have recovered from broken hearts, torn ligaments, shattered backs, and devastating loss. In our moments of weakness we have found strength in each other, in our families, and in ourselves. With this strength we are ready to face the future.

As we embark on our journeys we find that we need more than strength to live our dreams. We need courage and faith. Have the courage to lay aside your inhibitions and work towards your ambitions. Courage is more than the absence of fear—it is the knowledge that something is more important than fear. Do not be afraid of the unknown, unless it's math. Don't worry about making mistakes—everybody has, and will make mistakes. Besides, some mistakes are too fun to only make once. Don't be afraid to try something new for you only fail if you fail to try.

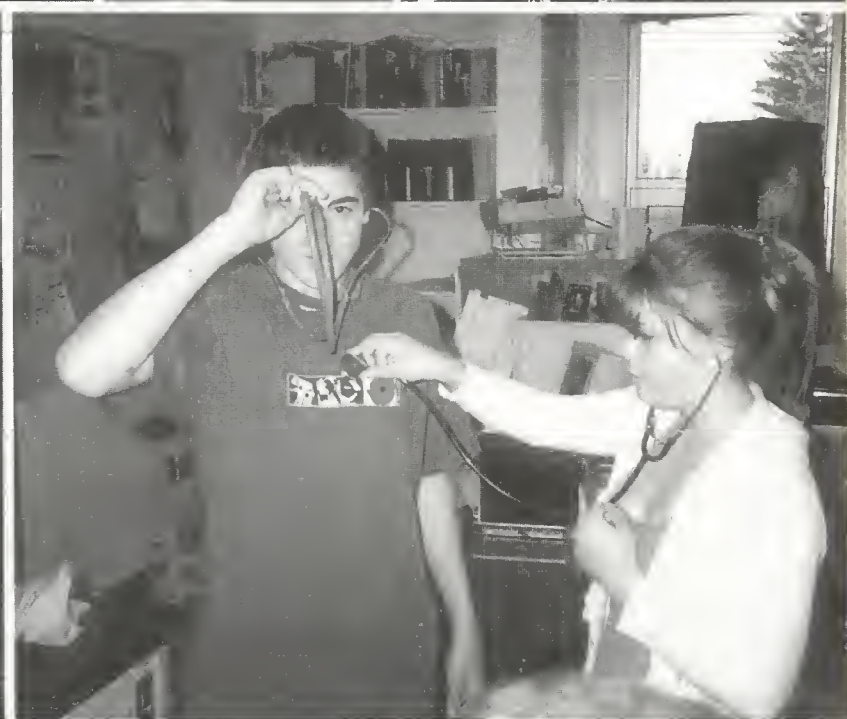

Have faith that everything will turn out the way that it should. Faith in God will get you through the most trying circumstances, for He will protect you and guide you if you ask. Have faith in yourself—believe in what you can do for you don't want to miss out on unconditional support from the one person on earth who knows you best. There lies within you the potential to do anything. In the words of Orison Marden, "Deep within man dwell those slumbering powers—powers that would astonish him, that he never dreamed of possessing, forces that would revolutionize his life if aroused and put into action." Have faith in your decisions, do what is right for you. Don't compare yourself to others for it will only make you a vain or bitter person, for there will always be lesser or greater people than you are. Have confidence in your judgment and choices in life. No one can make you feel inferior without your consent.

The right path does not always mean the easy one. Disappointment and frustration are signposts that your destination is worthwhile. If the going gets too easy, check and see if you are going downhill. Be thankful for every day you are given, even if it doesn't go the way you had planned.

The future is an uncertain place, and we can either embrace it or avoid it, but ultimately, we will become it. If we can face it with courage, faith, and strength, we will become whatever it is we choose to be. I would like to leave you with the words of a song that I find encouraging:

I hope you never fear those mountains in the distance.
Never settle for the path of least resistance.
Life might mean taking chances, but they're worth taking.
Loving might be a mistake, but it's worth making.
Don't let some hell-bent heart leave you bitter.
When you come close to selling out, reconsider.
Give the heavens above more than just a passing glance.
And when you get the choice to sit it out or dance,
I hope you dance.

Also we are very sorry if we have missed anyone, and thank-you for your gracious help!)

The Staff of J. C. Charyk School would like to acknowledge Mr. Karg's many years of service, support and dedication to our students, on this his final years of teaching.

Mr. Les Karg

Mr. Karg's teaching career spans 34 years in the districts of Starland, Rangeland, and Prairie Land. He was principal for 7 years in the Munson and Majestic schools. He advises that kids today are much the same as 20 or 30 years ago. One of his fondest memories is of former students who are now responsible adults. He enjoys the thought that he has taught the children of a previous generation of students.

Words of advice from Mr. Karg:

"Look at the teaching not for its monetary rewards, but for the rewards from teaching children and what you give to them."

He also advises students: "Try your hardest and do your best. Always get your work done."

Mr. Gaida

Mr. Gaida's leadership and support to the JCC staff & students for the past 22 years has been second to none. Whether through the day to day operations of the school, or through the period of construction of the new addition, Mr. Gaida has demonstrated a conviction of detail, fairness, and professionalism. I express my best wishes on his retirement, thank him for his unending dedication to the field of education, and his commitment to make J C Charyk one of the best schools in Alberta. It has been an honour and pleasure to work together. Enjoy your years of well earned retirement.

A Big Thank You From
Support Staff "Happy Retirement"

Mr. Gaida, thank you
for the many years
of unselfish dedication;
an excellent sense of
humour; and your support.
Greg Pyra

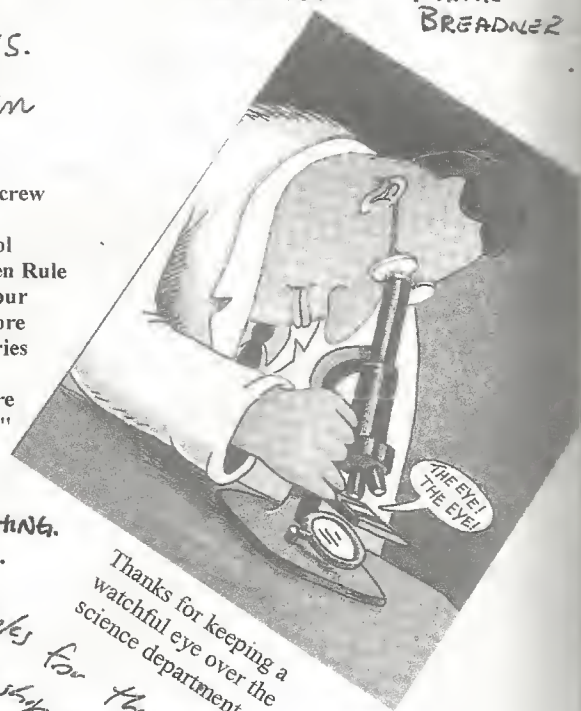

No more Social, not one test
No board meetings; just time to rest
Since September '80 you've lead the crew
Many old, some brand new
You've seen changes within the school
You've taught the students the Golden Rule
Grades twelve to ten, then down to four
You met that challenge and many more
You've done the dishes, cooked the fries
As a leader, you've been wise
Now you're "the age" to "semi"-retire
Put out the word "Grandpa for hire!"
Gloria Koppenol

Why would you want to retire?
Now you have to stay home
and clean the house!
Kelly

MR. GAIDA,
THANK YOU FOR EVERYTHING.
ENJOY YOUR RETIREMENT.
JEN

My first 18 years of teaching
were under your great leadership.
I thank you for that. By the way,
what's this new guy like? Collier

Thanks for keeping a
watchful eye over the
science department.
Thanks for the great
leadership!
Sandy Dave
